1. It is essential that, at least once a year, the Community search out and propose for priority revision those country topics whose importance to US Government interests has declined. This special review is necessary because the Community tends to concentrate on those consumer requirements which need greater effort and priority. Our review method is to subdivide the priorities register by subject, assigning each to Community elements with appropriate mission, expertise, and requirements. A primary reviewer is assigned to each subject category or subcategory. That element's priority revision nominations, as modified by coordination with other participating organizations, will constitute the principal input to the overall Community review to be held in July. [REDACTED]

2. Please take review responsibility for subjects or geographic regions as indicated on the attached list and mark your proposed downward revisions on the attached matrix sheets. There will be a meeting of the DCID 1/2 Committee at the Community Headquarters Building at 0945 on 30 June to accept and exchange proposed revisions and to schedule Community reviews of proposed revisions by category, subcategory, and geographic area. These reviews are tentatively scheduled for the period 19-23 July. Priority revision proposals agreed to at these meetings will be sent to the DDCI for his approval. [REDACTED]

3. Please provide copies of your proposals to the DCID 1/2 Secretariat prior to 30 June, or bring 10 copies to the meeting on that date. Primary reviewers are asked to coordinate their proposals with other Community authorities, to the extent possible, prior to 30 June. This will greatly expedite the Committee's discussion and vote on individual proposals. [REDACTED]
